DATE AND TIME: 11:00AM January 20, 1998

SUBJECT: Current Status of Facility in Council Bluffs

PERSON CONTACTED: Larry Kirchner

ORGANIZATION: Chevron Chemical Co, 6001 Bolinger Road, San Ramon, CA

DOCUMENTED BY: Robert Anslyn

INFORMATION COPIES TO: File

CONVERSATION: Upon contact, I informed Mr. Kirchner that my name was Robert Anslyn working under a grant at EPA. I asked Mr. Kirchner to explain the status of Chevron Chemical Company, Council Bluffs, IA. Mr. Kirchner stated that on July 24, 1987, the facility was closed. Mr. Kirchner stated that ground water sampling was conducted by three monitoring wells. Mr. Kirchner stated that Chevron had no additional information available regarding the use of this site since the sale in 1987.

A GPS Field Sheet dated September 26, 1994 reflects a picture of a "Fun Plex Recreation Center" located on this property. Upon review of the file, a flood screening inspection, conducted on November 16, 1994, found an abandoned steel frame building with no walls just south of the 35th avenue viaduct.

December 22, 1997

Dear *Mr. Johnson*:

Enclosed is a booklet including instructions and forms for the 1997 Hazardous Waste Report (commonly called the Biennial Report). All facilities that generate, treat, store or dispose of hazardous waste must report their hazardous waste activities for the 1997 calendar year, in accordance with Title 40 of the Code of Federal Regulations (CFR), Subpart D of Part 262 and Subpart E of Parts 264 and 265. This report is being collected under the authority of Sections 3002 and 3004 of the Resource Conservation and Recovery Act of 1976 (RCRA) as amended by the Hazardous and Solid Waste Amendments of 1984 (HSWA).

"WHO MUST FILE THE 1997 HAZARDOUS WASTE REPORT" on **Page i** of the booklet will help you determine whether your facility must file. The completed report must be returned no later than March 1, 1998, to

U.S. Environmental Protection Agency Region VII
ARTD/IRSP (Biennial Report)
726 Minnesota Avenue
Kansas City, Kansas 66101

If you are unable to complete and return the forms by March 1, 1998, you may request an extension of no more than 30 days. Your request must be made in writing and sent to EPA at the address above, must state the reason for which the extension is requested, and must be received by EPA no later than March 1, 1998. A postcard inside the booklet's back cover is provided for those that are not required to file. Return of the postcard by March 1, 1998, indicating the facility does not need to file allows EPA staff to distinguish between facilities that are not required to file and those that do not comply with the reporting requirements. Failure to comply under RCRA could subject your facility to an enforcement action with substantial penalties of as much as \$27,500 per violation per day of noncompliance.

In accordance with 40 CFR Part 2.203(b), a facility may assert a claim of business confidentiality covering all or part of its Hazardous Waste Report. All claims of confidentiality will require substantiation. **You bear the burden of substantiating your confidentiality claim** pursuant to 40 CFR 2.208(e).

Assistance with the forms is available. The U.S. EPA's RCRA, Superfund & EPCRA Hotline is available at 1-800-424-9346 and operates Monday through Friday from 8 a.m. to 5 p.m. Central Standard Time. The Region VII BRS Help line will also be available at (913) 551-7289, from January 2, 1998 through April 30, 1998, to assist you in completing the forms. Calls placed to the Region VII Help line will be returned within 24 hours by knowledgeable Region VII staff.

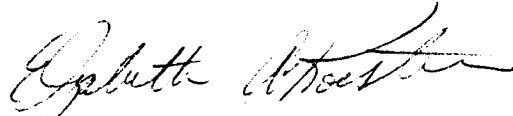

The U.S. EPA encourages facilities to file their 1997 Hazardous Waste Reports electronically. Information about electronic filing is available from the RCRA, Superfund & EPCRA Hotline. The format and media required are specified in a separate booklet, which will be sent on request.

Please keep these tips in mind as you complete and file your report.

- Facility identification labels have been attached to each form. If the labels are incorrect, provide the correct facility name, location and EPA Identification Number on each label. Make sure the information is in place before making copies of forms.
- Facilities are required by law to keep copies of their Hazardous Waste Reports for three years.

In an effort to keep our database current, a copy of your facility location information that we presently maintain in our files is enclosed (RCRIS Handler Report). Please indicate any changes to facility name, address or contact on this report and return it with your completed Biennial Report response. Thank you for your cooperation.

Sincerely,

Elizabeth A. Koesterer
Region VII Biennial Reports Coordinator
Air, RCRA and Toxics Division
